Pres-Augsburg Allegemaine Zeitung says ents make friends; friends don't make the balloon is the invention of a presents. Married people increase German engineer named Welker, who the circle of their friends with every for some time was employed in America, where he perfected his discoveries. The German government, the paper says, has bought the invention, paying for it 1,000,000 marks down and another 1,000,000 which is to be paid in installments. The speed of the baloon exceeds that of a railway train and it may be stopped and directed at will, moving against the wind. Whatever truth there may be in the report it is certain that the residents are now nightly startled by an electric illumination bovering at a great height over their houses.

I can tell you something in connection with John L. Sullivan's fightthe one that made the champion famous at Now Orleans-that might surprise you, said Richard K. Fox. Some time after the articles of agreement had been signed, and as the day set for making the second deposit of \$500 gradually drew nearer, Sullivan and his backers were chasing all around trying to secure the necessary funds. They did not meet with sucbess, however, and were about to give the matter up. I called Sullivan to my office, when I found that he had not been able to get the money, and told him that rather than see the fight fall through, although I was backing Byan myself and felt sure that Paddy would win, I would loan him the amount necessary to make the deposit, which I did. This will show you what little confidence the people had in Sullivan's singging abilities before he met Ryan.

The Seneca nation of Indians have brought suit against Harrison S. Christice, of Brant, Ene county, N. Y., for about 150,000 acres of land in Eris and adjoining counties, on the ground that the treaty of 1826 was not ratified by the United States senin the land for final determination, thought it best to save time by directants. General Strong, for the plaintiffs, conceded that a speedy course through the courts would be best, as penchant for having buttoners attractthe farmers are very much agitated ed the attention of the detectives long over the suit .- Las Vegas Optic.

"The Skin of My Teeth."

[From Notes and Queries.] It may be interesting to note that this expression, which by many is regarded as vulgar slang, has really the high classical authority of the Bible. It is Job (ix., 20) who exclaims, in his shorn lamb," "Pouring oil on the troubled waters," "The war horse not so. But there are not many who, in using the expression of hanging on or being saved by the "skin of their teeth," know the high authority for its use.
